

## Aluminum granule

### ● Description of aluminum granule

Aluminum granule is widely used in steel making, It can not only control the composition of molten steel, but also play an important role in deoxidizing .

### ● Advantages of aluminum granule

1. It has a great affinity with oxygen and nitrogen, nitrogen fixation.
2. It can refine grain, inhibit the aging of carbon steel, and improve the toughness of steel at low temperature.

### ● Advantages of our company

1. Professional manufacturer.
2. Several decades of rich experiences in metallurgical field.
3. Strict quality control and inspection.

### ● The specifications of aluminum granule

Type	Composition %	Specifications
Al granule	Al99.5	Customized

### ● Other notes of aluminum granule

**Packing:** Wrapped with water-proof woven bag.

**Storage:** Aluminum products should be stored in dry area of indoor.

**Terms of payment:** FOB shanghai port, by t/t or L/C at sight.

Add: No.5, Shenxiang Road, Yunting Street, Jiangyin, Wuxi, Jiangsu, China
